The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect your business or any weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Introduction

This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

Members of the Audit Committee can find further useful material on our website www.grant-thornton.co.uk, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications:

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at June 2017

99

2016/17 work	Planned Date	Complete?	Comments
<p>Fee Letter We are required to issue a 'Planned fee letter for 2016/17' by the end of April 2016</p>	April 2016	Yes	<p>The 2016/17 fee letter was issued in April 2016 and considered by the June committee.</p> <p>Our fee letter set out the scope of our 2016/17 work and included an outline timetable.</p>
<p>Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Council setting out our proposed approach in order to give an opinion on the Council's 2016/17 financial statements.</p>	March 2017	Yes	The Audit plan was presented to the April Audit Committee.
<p>Interim accounts audit Our interim fieldwork visit plan included:</p> <ul style="list-style-type: none"> • updated review of the Council's control environment • updated understanding of financial systems • review of Internal Audit reports on core financial systems • early work on emerging accounting issues • early substantive testing • Value for Money conclusion risk assessment. 	February- March 2017	Yes	We have built on our knowledge of the Council following our audits over the last few years. Issues arising from our interim visit were reported in the Audit Plan.

Progress at June 2017

2016/17 work	Planned Date	Complete?	Comments
<p>Final accounts audit Including:</p> <ul style="list-style-type: none"> • audit of the 2016/17 financial statements • proposed opinion on the Council's accounts • proposed Value for Money conclusion • review of the Council's disclosures in the consolidated accounts against the Code of Practice on Local Authority Accounting in the United Kingdom 2016/17. 	June-July 2017	No	<p>We will undertake work on your draft financial statements to provide an opinion by the statutory deadline. The final accounts audit commenced on 12 June 2017.</p> <p>As the auditor of the four Councils which form the Go Shared Services partnership, we will work across the Councils in a joined up way, auditing once and sharing information to ensure an efficient audit.</p> <p>We will report our findings in our Audit Findings Report.</p>
<p>Value for Money (VfM) conclusion The scope of our work is unchanged from 2015/16 and is set out in the final guidance issued by the National Audit Office in November 2015. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources". The guidance confirmed the overall criterion as; "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people". The three sub criteria for assessment to be able to give a conclusion overall are:</p> <ul style="list-style-type: none"> • Informed decision making • Sustainable resource deployment • Working with partners and other third parties 	January – June 2017	No	<p>We have carried out an initial risk assessment to determine our approach and we reported this in our Audit Plan.</p> <p>We will report our detailed findings in our Audit Findings Report at the conclusion of our fieldwork.</p>
<p>Housing Benefit Audit</p>	April – October 2017	No	<p>We have undertaken some initial testing of a sample of claims which will support both our accounts audit and housing benefit certification audit.</p> <p>Officers have undertaken some extended testing on a number of errors identified in the 2015/16 housing benefit claim in line with the HB COUNT approach. Officers have also received training from us on how to document the extended testing on the HB COUNT Workbooks the DWP require us to complete.</p>

Sector issues and developments

68

Local Government Finance Settlement

National developments

The final local government settlement for 2017/18 was published on 20 February. The settlement reflects the Government's aim that all councils will become self funding, with central government grants being phased out. This is year two of the four year offer, which has been accepted by 97% of councils.

There is an expectation that councils will continue to improve efficiencies with measures including further developments in digital technology, new delivery models and innovative partnership arrangements.

100% business rates retention

The announcement has an increased focus on business rates, with the expectation that by the end of the current Parliament, local government will keep 100% of the income raised through business rates. The exact details of the reforms are yet to be determined. This includes confirming which additional responsibilities will be devolved to local government and funded through these retained rates. Pilots of the reforms are taking place across the country from April 2017.

The results of a recent Municipal Journal survey *2017 State of Local Government Finance* have recently been published. http://downloads2.dodsmonitoring.com/downloads/Misc_Files/LocalGovFinance.pdf

Respondents expressed concern about the lack of detail in the proposals, uncertainty around equalisation measures and the scale of appeals.

Nearly 50% of Councils responding believe they will lose from the transition to 100% retention of business rates. Views were evenly split as to whether the proposals would incentivise local economic growth.

Social Care Funding

Funding allocations reflect increased funding of social care with a stated £3.5 billion of funding for social care by 2019/2020.

In this year's settlement £240 million of new homes bonus has been redirected into the adult social care grant. In addition councils are once again be able to raise the precept by up to 3% for funding of social care.

Recognising that funding is not the only answer, further reforms are to be brought forward to support the provision of a sustainable market for social care. There is an expectation that all areas of the country move towards the integration of health and social care services by 2020.

Paul Dossett Head of Local Government in Grant

Thornton LLP has commented on the Government proposals for social care funding (see link for full article).

"The government's changes to council tax and the social care precept, announced by the Secretary of State for DCLG as part of the latest local government finance settlement, will seem to many as nothing more than a temporary fix. There is real concern about the postcode lottery nature of these tax-raising powers that are intended to fund our ailing social care system."

"Our analysis on social care shows that the most deprived areas in the UK derive the lowest proportion of their income from council tax."

"Conversely, more affluent areas collecting more council tax will potentially receive a bigger financial benefit from these measures."

"Our analysis shows that the impact and effectiveness of the existing social care precept is not equal across authorities. So any further changes to tax raising powers for local government will

"Social care precept changes will not help those living in more deprived areas"

"The UK has a long tradition of providing care to those who need it most. If that is to continue, the government must invest in a robust social care system that can cater for all based on needs and not on geography. From a taxpayer's perspective this is a zero sum game. For every £1 not invested in social care, the cost to the NHS is considerably more"

not tackle the crisis of social care in our most disadvantaged communities and arguably make only make a small dent in the cost demands in our more affluent communities."

69

Pooling of LGPS

From 1 April 2018 £200bn of assets from 90 LGPS funds across England and Wales will be merged into six 'British Wealth Funds'. By pooling investment, costs can be reduced through economies of scale and through sharing of expertise, while the schemes can maintain overall investment performance. Pension funds will continue to be managed and maintained by the separate administering authorities. The selection of fund managers will be made by the investment pool operator on behalf of a pool of co-operating administrative authorities, while individual investment strategies, including asset allocation, will remain the responsibility of the individual administrative authority.

Potentially eight pools are to be established across the country with total assets ranging from £13bn in both the LPP and Wales pool, to £36bn in the Border to Coast pool. It is expected that assets will be transferred to the pools as soon as practicable after 1 April 2018.

Tasks to be completed by April 2018 include:

- creating legal structures for pools
- transferring staff
- creating supervisory boards/ committees
- obtaining FCA authorisations
- appointing providers
- assessing MiFID II implications
- determining pool structures for each asset type

The funds themselves will retain responsibility for:

- investment strategy
- asset allocation

- having a responsible investment strategy
- reporting to employers and members

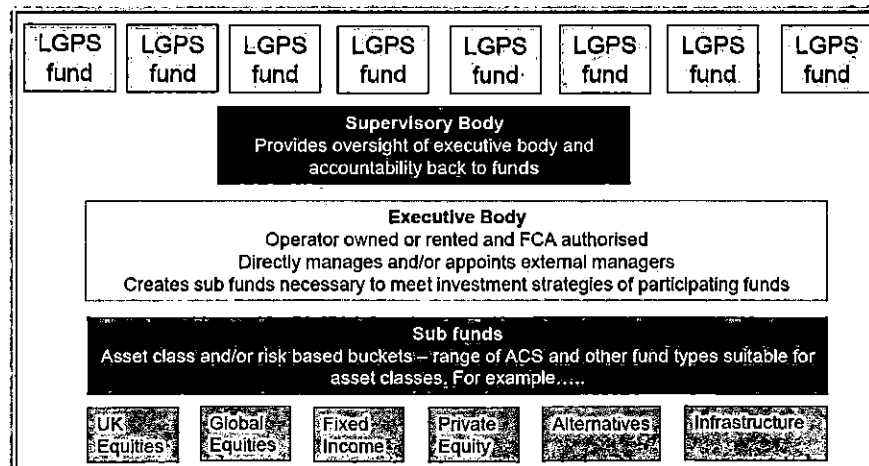

Governance arrangements

There is no mandatory membership of oversight structures. It is for each pool to develop the proposals they consider appropriate. The majority of decision making remains at the local level and therefore the involvement of local pension boards in those areas would not change. Scheme managers should consider how best to involve their pension boards in ensuring the effective implementation of investment and responsible investment strategies by pools, which could include representation on oversight structures.

CIPFA in the recent article *Clear pools: the future of the LGPS* highlights the need for good governance particularly in view of the complex web of stakeholders involved in investment pooling. Robust governance will be vital to ensuring a smooth transition and continuing operation of the funds.

Fixing our broken housing market

DCLG published its housing White Paper on 7 February 2017. It opens with the statement:

“The housing market in this country is broken, and the cause is very simple: for too long, we haven’t built enough homes.”

It goes on to summarise three key challenges in the housing market.

1. Over 40 per cent of local planning authorities do not have a plan that meets the projected growth in households in their area.
2. The pace of development is too slow. There is a large gap between permissions granted and new homes built. More than a third of new homes that were granted planning permission between 2010/11 and 2015/16 have yet to be built.
3. The structure of the housing market makes it harder to increase supply. Housing associations have been doing well – they’re behind around a third of all new housing completed over the past five years – but the commercial developers still dominate the market.

The proposals in the White Paper set out how the Government intends to boost housing supply and, over the long term, create a more efficient housing market whose outcomes more closely match the needs and aspirations of all households and which supports wider economic prosperity.

It states that the challenge of increasing housing supply cannot be met by the government acting alone and summarises how the government will work with local authorities, private developers, local communities, housing associations and not for profit developers, lenders, and utility companies and infrastructure providers.

For local authorities, the government is:

- offering higher fees and new capacity funding to develop planning departments, simplified plan-making, and more funding for infrastructure;
- will make it easier for local authorities to take action against those who do not build out once permissions have been granted; and
- is interested in the scope for bespoke housing deals to make the most of local innovation.

The government is looking to local authorities to be as ambitious and innovative as possible to get homes built in their area. It is asking all local authorities to:

- develop an up-to-date plan with their communities that meets their housing requirement (or, if that is not possible, to work with neighbouring authorities to ensure it is met);
- decide applications for development promptly; and
- ensure the homes they have planned for are built out on time.

The White Paper states that it is crucial that local authorities hold up their end of the bargain. It goes on to say that where local authorities are not making sufficient progress on producing or reviewing their plans, the Government will intervene. It also notes that where the number of homes being built is below expectations, the new housing delivery test will ensure that action is taken.

The White Paper goes on to consider in more detail:

- Planning for the right homes in the right places
- Building homes faster
- Diversifying the market
- Helping people now

National developments

Challenge questions

- Have you been briefed on the White Paper and the implications for your statutory housing function?
- Did the Council respond to the consultation?

Consultation on the White Paper began on 7 February 2017 and closed on 2 May 2017.

The White Paper is available at:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/590464/Fixing_our_broken_housing_market_-_print_ready_version.pdf

Local authority accounts – a guide to your rights

In addition to his statutory duties and powers in respect of the Code of Audit Practice and guidance to auditors, the Comptroller and Auditor General has agreed to maintain and publish Local authority accounts – a guide to your rights.

This document provides information on how people can ask questions and raise objections about the accounts of their local authority.

<https://www.nao.org.uk/code-audit-practice/council-accounts-a-guide-to-your-rights>

LAAP BULLETIN 105 Closure of the 2016/17 Accounts and Related matters

This bulletin covers the closure of accounts and related matters for the 2016/17 year and provides further guidance and clarification to complement the 2016/17 *Code of Practice on Local Authority Accounting in the United Kingdom Guidance Notes for Practitioners* (Code Guidance Notes). It addresses frequently asked questions, and other issues that have arisen since the publication of the Code Guidance Notes.

The bulletin focuses on those areas that are expected to be relevant for most authorities. It is not intended to replace authorities' processes for identifying issues, but to complement them.

In addition, the bulletin addresses matters that will generally be applicable to authorities across England, Wales, Scotland and Northern Ireland.

The income spectrum

Helping local authorities to achieve revenue and strategic objectives to create a vibrant economies

Grant Thornton market insight

Income generation is increasingly an essential part of the solution to providing sustainable local services, alongside managing demand reduction and cost efficiency. Our report gives local authorities the tools needed to maximise their ability to do so.

Our new research on income generation which includes our CFO Insights tool suggests that:

- councils are increasingly using income generation to diversify their funding base, and are commercialising in a variety of ways. This ranges from fees and charges (household garden waste, car parking, private use of public spaces), asset management (utilities, personnel, advertising, wifi concession license) and company spin-offs (housing, energy, local challenger banks), through to treasury investments (real estate development, solar farms, equity investment).
- the ideal scenario to commercialise is investing to earn with a financial and social return. Councils are now striving to generate income in way which achieves multiple strategic outcomes for the same spend; examining options to balance budgets while simultaneously boosting growth, supporting vulnerable communities and protecting the environment.
- stronger commercialisation offers real potential for councils to meet revenue and strategic challenges for 2020 onwards. Whilst there are examples of good practice and innovation, this opportunity is not being fully exploited across the sector due to an absence of a holistic and integrated approach to corporate strategy development (a common vision for success, understanding current performance, selecting appropriate new opportunities, the capacity and culture to deliver change).
- To support local authorities as they develop income generation strategies, the report provides:
 - case study examples
 - local authority spend analysis
 - examples of innovative financial mechanisms
 - critical success factors to consider
