Introduction

Julie Masci Engagement Lead

T 029 2034 7506 M 07730 677623 E Julie.Masci@uk.gt.com

This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Michelle Burge

Engagement Manager

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website www.grant-thornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at 23 March 2018

Financial Statements Audit

We have started planning for the 2017/18 financial statements audit and have issued a detailed audit plan, setting out our proposed approach to the audit of the Council's 2017/18 financial statements.

We commenced our interim audit in February 2018. Our interim fieldwork visit includes:

- Updated review of the Council's control environment
- · Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early work on emerging accounting issues
- Early substantive testing

The findings from our interim audit is reported to you in our Audit Plan.

The statutory deadline for the issue of the 2017/18 opinion is brought forward by two months to 31 July 2018. We are discussing our plan and timetable with officers.

The final accounts audit is due to begin on the 28 May with findings reported to you in the Audit Findings Report by the earlier deadline of July 2018.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

Informed decision making

Sustainable resource deployment

·Working with partners and other third parties

We made our initial risk assessment to determine our approach in March 2018 and reported this to you in our Audit Plan.

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the deadline in July 2018.

Other areas

Certification of claims and returns

We are required to certify the Council's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions. This certification work for the 2017/18 claim will be concluded by November 2018.

The results of the certification work are reported to you in our certification letter.

Meetings

We met with Finance Officers in January and March 2018 as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective. We also met with your Chief Finance Officer and the Finance Director of Publica Group (Support) Ltd in March to discuss the Council's strategic priorities and plans.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Finance Officers attended our financial Reporting Workshop held in February at our Bristol office. Our workshops are designed and delivered by our highly experienced public sector assurance team and help officers prepare for the financial statements audit by highlighting potential risk areas and providing an opportunity for discussion and questions.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Deliverables

2017/18 Deliverables	Planned Date	Status
Fee Letter	April 2017	Complete
Confirming audit fee for 2017/18.		
Accounts Audit Plan	April 2018	Complete
We are required to issue a detailed accounts audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Council's 2017-18 financial statements.		
Interim Audit Findings	April 2018	In Progress
We will report to you the findings from our interim audit and our initial value for money risk assessment within our Audit Plan.		
Audit Findings Report	July 2018	Not yet due
The Audit Findings Report will be reported to the July Audit Committee.		
Auditors Report	July 2018	Not yet due
This is the opinion on your financial statement, annual governance statement and value for money conclusion.		
Annual Audit Letter	August 2018	Not yet due
This letter communicates the key issues arising from our work.		
Annual Certification Letter	December 2018	Not yet due
This letter reports any matters arising from our certification work carried out under the PSAA contract.		

Sector Update

Local government finances are at a tipping point. Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

95

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, local government and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Financial sustainability of local authorities 2018

This National Audit Office report reviews financial sustainability across Local Government and examines whether the MHCLG, along with other departments with responsibility for local services, understands the impact of funding reductions on the financial and service sustainability of local authorities.

The report concludes that current pattern of growing overspends on services and dwindling reserves exhibited by an increasing number of authorities is not sustainable over the medium term. The financial future for many authorities is less certain than in 2014, when the NAO last looked at financial sustainability. It also notes that the financial uncertainty created by delayed reform to the local government financial system risks longer-term value for money.

The NAO's view is that the sector has done well to manage substantial funding reductions since 2010-11, but financial pressure has increased markedly since the 2014 review. Services other than adult social care are continuing to face reducing funding despite anticipated increases in council tax. Local authorities face a range of new demand and cost pressures while their statutory obligations have not been reduced. Non-social-care budgets have already been reduced substantially, so many authorities have less room for manoeuvre in finding further savings. The scope for local discretion in service provision is also eroding even as local authorities strive to generate alternative income streams.

Key findings include:

Financial resilience varies between authorities, with some having substantially lower reserves levels than others. Levels of total reserves in social care authorities as a whole are higher now than in 2010-11. However, there is variation in individual authorities' ability to build up their reserves and differences in the rate at which they have begun to draw them down. Some 10.6% of single-tier and county councils would have the equivalent of less than three years' worth of total reserves (earmarked and unallocated combined) left if they continued to use their reserves at the rate they did in 2016-17.

A section 114 notice has been issued at one authority, which indicates that it is at risk of failing to balance its books in this financial year. In February 2018, the statutory financial officer for Northamptonshire County Council issued a section 114 notice, indicating that it was at risk of spending more in the financial year than the resources it has available, which would be unlawful.

MHCLG's work to assess the sector's funding requirements as part of the 2015 Spending Review was better than the work it undertook for the 2013 Spending Review. The Department's advice to ministers in 2015 drew on a more comprehensive evidence base, including data returns from 12 departments.

The government has announced multiple short-term funding initiatives in recent years and does not have a long-term funding plan for local authorities. In 2016-17, the Department offered a four-year settlement to all authorities to enable better financial planning. However, there have been many changes to funding streams outside this core offer. The funding landscape following the 2015 Spending Review has been characterised by one-off and short-term funding initiatives.

There is also uncertainty over the long-term financial plan for the sector. The absolute scale of future funding is unknown until the completion of the next Spending Review. The government has confirmed its intention to implement the results of the Fair Funding Review in 2020-21 and to allow local authorities to retain 75% of business rates. However, the implications of these changes are not yet clear.

There is a lack of ongoing coordinated monitoring of the impact of funding reductions across the full range of local authority services.

Public Sector Audit Appointments: Report on the results of auditors' work 2016/17

This is the third report on the results of auditors' work at local government bodies published by PSAA. It summarises the results of auditors' work at 497 principal bodies and 9,752 small bodies for 2016/17. The report covers the timeliness and quality of financial reporting, auditors' local value for money work, and the extent to which auditors used their statutory reporting powers.

The timeliness and quality of financial reporting for 2016/17, as reported by auditors, remained broadly consistent with the previous year for both principal and small bodies. Compared with 2015/16, the number of principal bodies that received an unqualified audit opinion by 31 July showed an encouraging increase. 83 principal bodies (17 per cent) received an unqualified opinion on their accounts by the end of July compared with 49 (10 per cent) for 2015/16. These bodies appear to be well positioned to meet the earlier statutory accounts publication timetable that will apply for 2017/18 accounts.

Less positively, the proportion of principal bodies where the auditor was unable to issue the opinion by 30 September increased compared to 2015/16. Auditors at 92 per cent of councils (331 out of 357) were able to issue the opinion on the accounts by 30 September 2017, compared to 96 per cent for the previous year. This is a disappointing development in the context of the challenging new reporting timetable from 2017/18. All police bodies, 29 out of 30 fire and rescue authorities and all other local government bodies received their audit opinions by 30 September 2017.

The number of qualified conclusions on value for money arrangements has remained relatively constant at 7 per cent (30 councils, 2 fire and rescue authorities and 1 other local government body) compared to 8 per cent for 2015/16. The most common reasons for auditors issuing non-standard conclusions on the 2016/17 accounts were:

- the impact of issues identified in the reports of statutory inspectorates;
- corporate governance issues; and
- financial sustainability.

The latest results of auditors' work on the financial year to 31 March 2017 show a solid position for the majority of principal local government bodies. Generally, high standards of financial reporting are being maintained despite the financial and service delivery challenges currently facing local government.

Report on the results of auditors' work 2016/17

Supply Chain Insights tool helps support supply chain assurance in public services

Grant Thornton UK LLP has launched a new insights and benchmarking platform to support supply chain assurance and competitor intelligence in public services.

The Supply Chain Insights service is designed for use by financial directors and procurement professionals in the public sector, and market leaders in private sector suppliers to the public sector. It provides users with a detailed picture of contract value and spend with their supply chain members across the public sector. The analysis also provides a robust and granular view on the viability, sustainability, market position and coverage of their key suppliers and competitors.

The platform is built on aggregated data from 96 million invoices and covers £0.5 trillion of spending. The data is supplemented with financial standing data and indicators to give a fully rounded view. The service is supported by a dedicated team of analysts and is available to access directly as an on-line platform.

Phillip Woolley, Partner, Grant Thornton UK LLP, said:

"The fall-out from the recent failure of Carillion has highlighted the urgent need for robust and ongoing supply chain monitoring and assurance. Supply Chain Insights provides a clear picture of your suppliers' activities across the sector, allowing you to understand risks, capacity and track-record. We think it's an indispensable resource in today's supplier market."

The tool enables you to immediately:

- · access over 96 million transactions that are continually added to
- segment invoices by:
- organisation and category
- service provider
- date at a monthly level
- benchmark your spend against your peers
- identify:
 - organisations buying similar services
 - differences in pricing
- the leading supplier
- · see how important each buyer is to a supplier
- benchmark public sector organisations' spend on a consistent basis
- see how much public sector organisations spend with different suppliers

Supply Chain Insights forms part of the Grant Thornton Public Sector Insight Studio portfolio of analytics platforms.

Cost Assurance

Did you know

40 Number of Public Sector engagements to date

£125m Annual spend analysed

£3.55m Rebate opportunities identified

£1.1m Fee income identified

2.84% Error rate – rebates versus spend volume

55% Of Public Sector engagements are Local Government Our Cost Assurance service line provides Local Authorities with an independent and retrospective audit of their legacy telecommunications and utilities costs incurred during the past 6 years (as per the Statute of Limitation).

We find that there are repeat errors contained within a Suppliers' invoice arrangements – errors that aren't necessarily picked up by the end client. This is due to the fact that they tend to be contained in suppliers' billing systems 'at source' and are much further down the supply chain which the user won't necessarily have visibility of.

We are supported by a comprehensive library of legacy supplier pricing that has been collated since 2011. Our one aim is to ensure that the client has only paid for the services used during the period by:

- ensuring that bills presented by Suppliers' are in line with their contracts and relevant pricing mechanisms
- · ensuring the client receives the Supplier refunds where errors have been identified by us
- · ensuring consequential savings are identified and implemented immediately for the client

Our Cost Assurance work is based on a contingent-fee model and is supported by PSAA Ltd. Each of our Local Authority engagements include a fee cap to ensure governance and regulatory standards are maintained.

In summary, we are able to bring much needed financial benefit to the sector as well as providing insight into errors that may be prone to repeat offence by suppliers long after our work is concluded.

Grant Thornton challenge question:

Has your Authority considered the potential for an independent review of telecommunications and utility costs?
