Reason(s) for Recommendation(s)	The Local Government Act 2003 requires the Council to set out its Treasury Management Strategy and to prepare an Annual Investment Strategy.

Ward(s) Affected	N/A

Key Risks	There are risks of financial institutions failing given the current economic conditions. However, the risks are mitigated through application of the Council's Treasury Management Strategy. The strategy sets out the minimum credit criteria that are required before the Council will invest with a counterparty, but it should be noted that these are not the sole criteria applied. For example, credit default swaps and information from the financial press will also be taken into account.

	There are risks of interest rates remaining low over the medium term which impact upon the Council's ability to generate investment income. These risks are routinely considered in the Council's Treasury Management Strategy, the Medium Term Financial Plan and the associated Budget Strategy.
Equalities Impact Assessment	Not Required

Related Decisions	An update to the Council's Medium Term Financial Strategy 2016/17 to 2019/20 and the Budget for 2016/17 will be considered by Cabinet on 18 th February 2016 and full Council on 23 rd February 2016.
