

Notification of Decision of the Cabinet Member for Climate Change and Forward Planning

Present: Councillor Rachel Coxcoon

Officers: Joseph Walker, Democratic Services

1. Neighbourhood Planning: Representation to the Regulation 16 Consultation on the South Cerney Neighbourhood Development Plan

This report enables the Cabinet Member for Climate Change and Forward Planning to agree a representation from the Council to the Regulation 16 consultation on the South Cerney Neighbourhood Development Plan.

Decision:

The Cabinet Member:

Considered the draft representation, and subject to the amendments discussed, agreed it for submission to inform the review by the Independent Examiner.

Reason for Decision of the Cabinet Member for Climate Change and Forward Planning for Health and Wellbeing:

The plan has been consulted on by the Parish Council, and is currently subject to a consultation carried out by this Council. Local residents, businesses and a range of statutory and non-statutory organisations have been informed of the consultation. It should be noted that the consultation does not present an opportunity to add to or alter the plan directly – but is instead an opportunity for consultees to raise concerns with the examiner to inform the decision on whether the submitted plan meets the Basic Conditions – the legal requirements for a Neighbourhood Development Plan to proceed to referendum
