The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

Factors

Council developments

The Council continues to operate in an uncertain and challenging environment due to changes to Government funding and the global pandemic. The Council continues to balance service delivery with the need to drive efficiencies. Financially the Council is forecasting a small underspend for 2020/21 and has set a balanced budget for 2021/22.

Whilst the Council's Medium Term Financial Strategy sets out a significant challenge, the Council is transparently reporting both the revenue and capital funding challenge to enable informed decision making.

At a national level, the UK left the European Union (EU) on 1 January 2021 although uncertainty remains over the country's trading relationship with the EU which could have implications for the supply chain and on EU nationals employed directly or indirectly by the Council. The Council will need to ensure that it is prepared for all outcomes, including in terms of any impact on the supply of any imported goods and equipment and overseas staff.

Impact of Covid 19 pandemic

The current lockdown restrictions mean that we will have to continue to work completely remotely for a longer period and potentially through much of the audit for 2020-21. Working in cooperation with the Council, we managed this effectively for the 2019-20 audit and we will be in regular contact with your finance team in respect of the logistics of these arrangements for our 2020-21 programme of audit work. We aim to build on our experience from last year. As restrictions ease will consider the implications for how this impacts on how we complete the audit.

Financial Reporting and Audit – raising the bars

The Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge, and to undertake more robust testing. Our work in 2019/20 has highlighted areas where Local Government financial reporting, needs to be improved, with a corresponding increase in audit procedures. We have also identified an increase in the complexity of financial transactions in the Local Government sector which require greater audit scrutiny.

Our response

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set further in this Audit Plan, has been agreed with the Section 151 Officer.
- As previously reported the Code has changed in relation to VFM. We will consider your arrangements for managing and reporting your financial resources as part of our work in completing our Value for Money work – please see more detail on pages 14 and 15.
- The Council's valuer reported a material uncertainty in regards to the valuation of land and buildings and investment properties in 2019/20 due to the Covid 19 pandemic. Early indications are that we do not expect a similar uncertainty to be reported in 2020/21. We do, however, continue to identify a significant risk in regards to the valuation of these assets – refer to page 6 – this is due to the inherent high degree of estimation uncertainty.
- An uncertainty was also disclosed in 2019/20 in respect of the potential impact of Covid 19 on property investments funds held within the pension funds assets. As set out above we do not expect a similar uncertainty to be reported in 2020/21. We do however continue to identified a significant risk in regards to the valuation of the pension fund liability – refer to page 7 – this is due to the inherent high degree of estimation uncertainty.
- We will continue to provide you with sector updates via our Audit Committee updates.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Cotswold District Council ('the Council') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Cotswold District Council. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the:

- Council's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit Committee); and
- Value for Money arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Audit Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Revenue and expenditure recognition (rebutted);
- Management override of controls;
- Valuation of land and buildings;
- Valuation of investment properties; and
- Valuation of net pension fund liability.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £0.780m (PY £0.790m) for the Council, which equates to approximately 1.9% of your prior year gross expenditure. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £0.040m (PY £0.040m).

Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money have identified the following risks of significant weakness:

- Financial Sustainability - Whilst the Council is forecasting delivery of a small surplus for 2020/21, there remains a financial challenge over the medium term in relation to revenue funding. Due to the inherent uncertainty, we have concluded that there is a significant risk of weakness in arrangements for delivering financial sustainability.

Audit logistics

Our interim visit will take place in March/April 2021 and our final visit will take place during July to September 2021. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our proposed audit fee for the audit has been set at £57,307. The scale fee, set by PSAA, is £34,557, however this does not reflect the additional work now required due to the changes in expectations of the regulator or the additional work required on the VFM conclusion as a result of the new Code issued by the NAO. The fee for 2019-20 was £52,677 for the Council. The fee for the current year, as in previous years, is subject to the Council delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions (rebutted)	Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition. Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Council, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because: • there is little incentive to manipulate revenue recognition • opportunities to manipulate revenue recognition are very limited • the culture and ethical frameworks of local authorities, including Cotswold District Council mean that all forms of fraud are seen as unacceptable.	No specific work is planned as the presumed risk has been rebutted.
The expenditure cycle includes fraudulent transactions (rebutted)	Practice Note 10: Audit of Financial Statements of Public Sector Bodies in the United Kingdom (PN10) states: "As most public bodies are net spending bodies, then the risk of material misstatement due to fraud related to expenditure may be greater than the risk of material misstatements due to fraud related to revenue recognition". Public sector auditors therefore need to consider whether they have any significant concerns about fraudulent financial reporting of expenditure which would need to be treated as a significant risk for the audit. We have rebutted this presumed risk for Cotswold District Council because: • expenditure is well controlled and the Council has a strong control environment; and • the Council has clear and transparent reporting of its financial plans and financial position to the Council. We therefore do not consider this to be a significant risk for Cotswold District Council.	No specific work is planned as the presumed risk has been rebutted.

Significant risks identified (continued)

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Management over-ride of controls	Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.	We will: • evaluate the design effectiveness of management controls over journals; • analyse the journals listing and determine the criteria for selecting high risk unusual journals; • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration; • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.
Valuation of land and buildings	The Council revalues its land and buildings on a rolling five-yearly basis. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved (£68 million in 2019/20) and the sensitivity of this estimate to changes in key assumptions. Additionally, management will need to ensure the carrying value in the Council's financial statements is not materially different from the current value at the financial statements date, where a rolling programme is used. We therefore identified valuation of land and buildings, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement, and a key audit matter.	We will: • evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work; • evaluate the competence, capabilities and objectivity of the valuation expert; • write to the valuer to confirm the basis on which the valuation was carried out; • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding, the Council's valuer's report and the assumptions that underpin the valuation; • test revaluations made during the year to see if they had been input correctly into the Council's asset register; and • evaluate the assumptions made by the valuer for those assets revalued at 31 March 2021. For the assets not formally revalued in year we will assess how management has satisfied themselves that these assets are not materially different to the current value at the year end.

Significant risks identified (continued)

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of investment properties	The Council revalues its investment properties annually. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved (£7 million in 2019/20) and the sensitivity of this estimate to changes in key assumptions. We therefore identified valuation of investment properties, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement, and a key audit matter.	We will: • evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work; • evaluate the competence, capabilities and objectivity of the valuation expert; • write to the valuer to confirm the basis on which the valuation was carried out; • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding, the Council's valuer's report and the assumptions that underpin the valuation; • test revaluations made during the year to see if they had been input correctly into the Council's asset register; and • evaluate the assumptions made by the valuer for those assets revalued at 31 March 2021.
Valuation of the pension fund net liability	The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements. The pension fund net liability is considered a significant estimate due to the size of the numbers involved (£40 million in 2019/20) and the sensitivity of the estimate to changes in key assumptions. We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.	We will: • update our understanding of the processes and controls put in place by management to ensure that the Council's pension fund net liability is not materially misstated and evaluate the design of the associated controls; • evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work; • assess the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation; • assess the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability; • test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary; • undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and • obtain assurances from the auditor of the Gloucestershire Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Accounting estimates and related disclosures

Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings, and investment properties,
- Depreciation,
- Year end provisions and accruals,
- Credit loss and impairment allowances
- Valuation of defined benefit net pension fund liabilities, and
- Fair value estimates

The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- What the assumptions and uncertainties are;
- How sensitive the assets and liabilities are to those assumptions, and why;
- The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and
- An explanation of any changes made to past assumptions if the uncertainty is unresolved.

Planning enquiries

As part of our planning risk assessment procedures we have made enquiries of management and the responses will be shared with Those Charged with Governance alongside this Audit Plan.

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540_Revised-December-2018_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your 2020/21 financial statements, consider and decide upon any objections received in relation to the 2020/21 financial statements;
 - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
 - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
 - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important and mark a significant departure from how this concept has been audited in the public sector in the past. In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. Applying such an approach should enable us to increase our focus on wider financial resilience (as part of our VfM work) and ensure that our work on going concern is proportionate for public sector bodies. We will review the Council's arrangements for securing financial sustainability as part of our Value for Money work and provide a commentary on this in our Auditor's Annual Report.

Progress against prior year audit recommendations

We identified the following issues in our 2019/20 audit of the Council's financial statements, which resulted in the recommendations below. In the following table we set out progress against each of our prior year recommendations.

Assessment	Issue and risk previously communicated	Update on actions taken to address the issue
✓	It was clear that the Council responded positively to the challenge presented by Covid-19 and were adequately monitoring and assessing the current and future impacts on the Council's finance, albeit it with an increased level of uncertainty. The financial years 20/21 and 21/22 will see perhaps the peak of the challenge with reduced levels of income, impact on savings, and uncertainty of funding. It is therefore business critical that officers and members take immediate action to identify further mitigations by way of reducing costs or increasing income. It is also crucial the medium-term financial plan is refreshed at the earliest opportunity. We recommended that officers and Members take action in 2020 to reduce the current budget gaps over the medium term. We further recommended that the Council continue to refresh the medium-term financial plan to reflect the impact of Covid-19 as things develop and to ensure the financial challenge is fully known.	The Council has taken action against this recommendation, however, financial sustainability remains a key challenge. Our VFM section of this report sets out that we plan to do more risk based work in this area in 2020/21.
Not yet assessed	Our work identified a number of issues in relation to the valuation reports provided to the Council by the Internal Valuer. We recommended that the council should ensure that they read reports in full prior to inputting data to the financial statements and challenge the valuer where appropriate.	We will assess progress against this recommendation as part of our year end audit.

Materiality

The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the gross expenditure of the Council for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £0.780m (PY £0.790m) for the Council, which equates to approximately 1.9% of your prior year gross expenditure. We recognise the public interest in senior officer remuneration disclosures. For our work in this area we will be auditing to the detailed disclosure requirements and where we identify differences that change the amount, or bandings we will request that these are amended. In addition we have set a separate specific materiality of £0.005m (PY £0.004m).

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £0.040m (PY £0.040m).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit Committee to assist it in fulfilling its governance responsibilities.

Value for Money arrangements

Revised approach to Value for Money work for 2020/21

On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The Code introduced a revised approach to the audit of Value for Money. (VFM)

There are three main changes arising from the NAO's new approach:

- A new set of key criteria, covering financial sustainability, governance and improvements in economy, efficiency and effectiveness
- More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach
- The replacement of the binary (qualified / unqualified) approach to VFM conclusions, with far more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

The Code require auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under three specified reporting criteria. These are as set out below:

Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

Risks of significant VFM weaknesses

As part of our planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed in the first table below, along with the further procedures we will perform. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the second table below.

Risks of significant weakness

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the body to deliver value for money.

Financial Sustainability

The Council is forecasting an underspend of £0.520m for 2020/21. Whilst the Council has a healthy level of reserves and a strong history of delivering financial targets and savings, the financial challenge and uncertainty continue to increase. In setting the 2021/22 budget and Medium Financial Strategy for the next 4 years, the Council has identified the need to make further in savings/additional income from 2021/22 to 2024/25. Due to the inherent uncertainty we have concluded that there is a significant risk of weakness in arrangements for delivering financial sustainability.

Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

Audit logistics and team

Peter Barber, Key Audit Partner

Peter is responsible for the overall delivery of the audit. He will meet regularly with senior management of the Council and will attend Audit Committee meetings.

Siobhan Barnard, Audit Manager

Siobhan oversees day to day planning and manages the work of the Audit Incharge and associates to ensure that the audit work is focussed on the key areas of the financial statements risks and compliance with relevant accounting standards and guidance.

Francesca Hitchman, Audit Incharge

Francesca is responsible for the on-site delivery of the audit work. He assigns activities across the team and ensures it is completed satisfactorily.

Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees

As referred to on page 14, the 2020/21 Code introduces a revised approach to our VFM work. This requires auditors to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach. Auditors now have to make far more sophisticated judgements on performance, as well as issue key recommendations if any significant weaknesses in arrangements are identified during the audit. We will be working with the NAO and other audit firms to discuss and share learning in respect of common issues arising across the sector.

The new approach will be more challenging for audited bodies, involving discussions at a wider and more strategic level. Both the reporting, and the planning and risk assessment which underpins it, will require more audit time, delivered through a richer skill mix than in previous years. This will result in an increased fee however the scale of that increase has yet to be finally determined.

Additionally, across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing, as noted in the number of revised ISA's issued by the FRC that are applicable to audits of financial statements commencing on or after 15 December 2019, as detailed in Appendix 1.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting. Our proposed work and fee for 2020/21 to date, as set out below, is detailed overleaf.

	Actual Fee 2018/19	Actual Fee 2019/20	Proposed fee 2020/21
Council Audit	£45,807	£52,677*	£57,307
Total audit fees (excluding VAT)	£45,807	£52,677*	£57,307

*The additional fee element of the actual fee for 2019/20 is subject to final approval by PSAA.

Assumptions

In setting the fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Audit fees – detailed analysis

Scale fee published by PSAA	£34,557
<i>Ongoing increases to scale fee first identified in 2019/20</i>	
Raising the bar/regulatory factors	£2,500
Enhanced audit procedures for Property, Plant and Equipment	£1,750
Enhanced audit procedures for Pension Liabilities (IAS19)	£1,750
Other complex issues or expert advice	£1,250
Brought forward ongoing fee from 2019/20	£41,807
<i>New issues for 2020/21</i>	
Additional work on Value for Money (VfM) under new NAO Code	£9,000
Increased audit requirements of revised auditing standards (see appendix 1)	£6,500
Specific local risks: capital portfolio valuation/ new valuer (absorbed into the fee)	£0
Total proposed audit fees 2020/21 (excluding VAT)	£57,307

All variations to the scale fee will need to be approved by PSAA. These additional fees will be subject to challenge from PSAA to justify the need for these areas of additional work. No additional fees will be billed until PSAA approval has been obtained.

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

In this context, we disclose to you that during the early part of the 2019/20 financial year, the previous audit manager, applied for a job with Publica. Following the application process, she was successful and has now taken up her new role. The role involves completion of accounting transactions and the preparation of the financial statements for Cotswold District Council. As a result this has required us to put certain safeguards in place to ensure that we can continue with the audit appointment and comply with the ethical standards as a firm.

The safeguard has been agreed by our ethics function and is such that the audit with effect from 2020/21 has been conducted with a new engagement lead from the South West Office, but then with the remainder of the audit team being sourced from our Midlands Public Sector Team.

We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

Other services

For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Authority. We have not identified any other services.

Appendix 1: Revised Auditor Standards and application guidance

FRC revisions to Auditor Standards and associated application guidance

The following Auditing Standards and associated application guidance that were applicable to 19/20 audits, have been revised or updated by the FRC, with additional requirements for auditors for implementation in 2020/21 audits and beyond.

	Date of revision	Application to 2020/21 Audits
ISQC (UK) 1 – Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and other Assurance and Related Service Engagements	November 2019	✓
ISA (UK) 200 – Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing (UK)	January 2020	✓
ISA (UK) 220 – Quality Control for an Audit of Financial Statements	November 2019	✓
ISA (UK) 230 – Audit Documentation	January 2020	✓
ISA (UK) 240 – The Auditor’s Responsibilities Relating to Fraud in an Audit of Financial Statements	January 2020	✓
ISA (UK) 250 Section A – Consideration of Laws and Regulations in an Audit of Financial Statements	November 2019	✓
ISA (UK) 250 Section B – The Auditor’s Statutory Right and Duty to Report to Regulators of Public Interest Entities and Regulators of Other Entities in the Financial Sector	November 2019	✓

Appendix 1: Revised Auditor Standards and application guidance continued

	Date of revision	Application to 2020/21 Audits
ISA (UK) 260 – Communication With Those Charged With Governance	January 2020
