

## **ANNEX D - ADDENDUM**

### **Jonathan Harvey (Local resident)**

I would like to attend the meeting next Wednesday. I very much object to the application for trading immediately outside of our front garden. We have just moved to the area and have looked forward to bringing up our children in a wonderful village. If the licence is granted it is highly unlikely that we will be able to let the children or the dog have access to front garden as it we will be constantly overlooked by people from outside the village. We would have a fear for the health and safety of the children and the dog as a result. I also work from home and overlook the area that I proposed for trading. Given the new double yellow lines and the volume of traffic I witness turning around I cannot see how chaos does not take over at the end of Clapton row when we have throngs of people queuing for ice cream mixed in with constant turning of cars at the before the ford.

The given the level of local objection form the houses that live in the immediate vicinity is taken into account for this application.
